Where the trail ends, terror begins...

## **Synopsis**

Spring, 1875. Deep in the southwest, there is a lone ranch tucked away so deliberately, the only way to find it is by not looking. Behind its doors, an elderly husband and wife guard a dark and complex secret. No one else has shared it...until now.

Lead by the notorious Billy Clemens, an extra-ordinary group of six outlaws finds themselves chased far into the wilderness by a determined tracker. The gang includes Maggie and Virginia Calder, two beautiful sisters who have a penchant for disguise, gun handling and a mystical connection with destiny. With Billy badly wounded, the gang stumbles across the secluded ranch and makes an unexpected and unwelcome visit.

As night falls, their timing and desperate behavior unleash the ultimate horror - unrelenting, unforgiving and so powerful, no six-shooter can put a dent in it. Only the younger sister, Virginia, torn between loyalty and true love, has the power to end the terror. But at what cost ?
